

BATTLE CARD

Rev.io PSA **vs.** ConnectWise

A side-by-side comparison for teams evaluating PSA platforms — built for MSPs, telecom providers, and AV/security integrators.

Only Rev.io PSA shares a live dataset and complete native integration with a telecom billing and tax database — giving your team a single source of truth across ticketing, billing, and tax compliance.

The **Only PSA** with Native Telecom Billing + Tax Integration

Rev.io PSA is purpose-built for service providers. Unlike ConnectWise — which requires third-party billing integrations that must be manually maintained — Rev.io PSA shares a **live, unified dataset** with a full telecom billing engine and tax compliance database. That means zero reconciliation between your ticketing system and your invoices, and automatic tax calculation built directly into your billing workflow.

Rev.io PSA

PURPOSE-BUILT
FOR TELECOM &
SERVICE
PROVIDERS

ConnectWise

TRADITIONAL MSP
PSA

CORE PSA CAPABILITIES

Ticketing & Service Desk	✓ Full ticketing, SLAs, custom workflows, automated assignment	✓ Comprehensive ticketing with SLA management
Scheduling & Dispatch	✓ Drag-and-drop dispatch board, real-time tech tracking, Outlook 2-way sync	✓ Dispatch portal with calendar integration
Mobile App for Technicians	✓ Field invoicing, payment collection, time tracking, service notes	~ Mobile app available; limited field payment capture
Project Management	✓ Full PM with job costing, milestones, phase billing, and labor tracking	✓ Project management with resource scheduling
Contract & Agreement Management	✓ Recurring contracts, SLA enforcement, automated renewals	✓ Agreement management with automated billing
Quoting & CPQ	✓ E-signature, auto ticket generation from quote, product catalog	~ CPQ via ConnectWise Sell (separate product, additional cost)
Inventory & Parts Management	✓ Real-time inventory tracking, parts ordering, warehouse management	~ Basic inventory; advanced requires third-party
CRM / Sales Pipeline	✓ Native CRM with opportunity tracking and pipeline management	~ CRM via ConnectWise Sell or Salesforce integration

BILLING, TAX & FINANCIAL INTEGRATION

Telecom Billing Integration REV.IO ONLY	✓ Native shared dataset with Rev.io's telecom billing engine — zero reconciliation, real-time sync	✗ No native telecom billing — requires third-party integrations (e.g., ConnectWise Billing, external BSS)
Telecom Tax Database REV.IO ONLY	✓ Built-in telecom tax compliance (USF, 911, regulatory fees) — calculated automatically per transaction	✗ No native telecom tax engine — requires AvaTax or manual configuration
Recurring Billing (RMR)	✓ Automated recurring billing directly from PSA contracts and service agreements	~ Recurring billing via agreement module; may require ConnectWise Billing add-on
Usage-Based Billing	✓ Native usage rating engine — supports metered, consumption, and tiered billing	✗ Not natively supported; requires external billing platform
QuickBooks Integration	✓ 2-way sync with QuickBooks Online; manual push for QBD	✓ 2-way integration with QuickBooks Online and Desktop
Payment Processing	✓ Native payments via TRX Services — ACH, credit card, field collection	~ Payments via ConnectWise Pay (additional setup required)
Agent / Partner Commissions	✓ Automated commission calculation tied to billing data	✗ No native commission engine; requires manual reporting or third-party
Multi-Entity / Parent-Child Billing	✓ Tiered billing hierarchy —	~ Basic parent-child; limited for

**supports site,
customer, partner,
carrier rollup**

complex carrier
hierarchies

INTEGRATIONS & ECOSYSTEM

RMM Integrations

~ NinjaOne (in development), Acronis native, expanding roadmap

✓ **Deep native integrations: NinjaOne, Datto, Kaseya, Continuum**

Microsoft 365 / Outlook

✓ **2-way Outlook calendar sync for dispatch and scheduling**

✓ **Microsoft 365 integration including email and calendar**

Distributor / Pricebook

~ Live vendor pricing in development (TD Synnex, Ingram Micro roadmap)

✓ **Live pricing from major distributors (Ingram Micro, TD Synnex, etc.)**

Documentation (IT Glue / Hudu)

~ Roadmap integration

✓ **Native IT Glue integration; Hudu via connector**

Salesforce Integration

~ API available; native connector in development

✓ **Native Salesforce integration**

Odin / UCaaS Platform

✓ **Native integration with Rev.io Odin for UCaaS providers**

✗ No native UCaaS/Odin integration

PLATFORM, PRICING & SUPPORT

Platform Architecture

✓ **Modern cloud-native, web-based, fully mobile-responsive**

~ Transitioning from legacy to Asio cloud platform (in progress)

Implementation & Onboarding

✓ **Dedicated onboarding analyst, weekly**

~ Implementation via partner ecosystem; timeline varies

	calls, unlimited support until live	
Pricing Model	✓ Transparent per-user pricing; no separate product bundles required	~ Bundled (ConnectWise Pro) or modular pricing; CPQ and billing are add-ons
Customer Support	✓ Unlimited support through go-live; ongoing dedicated team	~ Support tiers vary; community-heavy for standard plans
Built for Telecom / UCaaS / VoIP	✓ Purpose-built for service providers: MSPs, telecom carriers, AV, security	~ Primarily built for IT MSPs; telecom use requires customization
Market Maturity	~ Newer PSA platform; rapidly expanding feature set (Apollo release cadence)	✓ 20+ years in market; large installed base and partner ecosystem

REV.IO PSA — BEST FOR

- Telecom providers, UCaaS, VoIP, and MSPs managing recurring billing
- Service providers who need billing + PSA on one unified platform
- Companies with complex tax compliance needs (USF, 911, regulatory fees)
- Organizations billing through a channel with agent commission requirements
- AV, security, and field service companies scaling operations
-

CONNECTWISE — BEST FOR

- Pure IT MSPs with no telecom billing requirements
- Organizations already deep in the ConnectWise ecosystem
- Teams that need mature RMM integrations today (NinjaOne, Kaseya)
- Larger enterprises that need a proven, high-volume legacy platform
- MSPs with distributor pricebook automation as a core requirement

Teams frustrated by reconciliation
between their PSA and billing
system
